

Math/CTE Partnership Institute

Building Partnerships for Increasing Opportunities in Math

Second Workshop in Institute Series: Tuesday, October 28, 2008-- For New and Returning Participants

Goals of the Workshop:

- Collaborating in math teaching and learning in support of student success
- Updates on new Math Standards, third year of math, and CTE Option for the third year of math
- Team focus on math applications and learning across disciplines
- Design and implement a cross-discipline, math/CTE collaboration for student achievement in your school or district

A Professional Development Opportunity For:

- For High School Math Teachers, High School Career and Technical Education Teachers, Math Coordinators/Coaches, District/Building Administrators

Structure of the Institute:

- Three Workshops to be held October 28, Winter, and Spring, 2008-2009
- Participants are strongly encouraged to attend in teams of CTE and Math teachers, and to commit to participating in all sessions
- Six free clock hours per session will be offered

Cost for new participants:

- For a team of 4 or 5 to attend all 3 sessions in 2008-2009: \$400
- Individual, per session cost: \$40
- Registration includes materials, lunch and snacks for each session

Returning participants:

- No additional fees
- Please register on the "Returning Participant" registration form.

PREREGISTRATION REQUIRED

This workshop qualifies as an appropriate use of professional development funds for mathematics.
